

MOVING TIPS

- Allow plenty of time to clean out or give away items you may not need in your new home.
- Make sure everything is completely packed before your movers.
 - Pack an overnight bag containing all the essentials.
 - Secure boxes so that they closed without caving or bulging.
 - Label what is in each box and be sure to add what room they'll be going into.
 - Pack plates vertically.
- If it looks like you will not be fully packed for the day of your move, please call us so that we can have a heads up and try to send some packing help so that your move can stay on schedule.
- Defrost your fridge at least 1 day prior to moving. All other appliances should be disconnected prior to your movers arriving. This includes water lines, electrical hookups, etc.
- *For Electronics:* Take a picture of how your electronics are connected so you can remember where the wires go.
- **IMPORTANT** - Items valued at more than \$100 per pound should be disclosed to your New Latitude representative; they will assist in making sure that you are properly insured.

IF YOU HAVE ANY QUESTIONS REGARDING YOUR MOVE PLEASE CONTACT OUR OFFICE
